BEST KEPT SECRET TO FREE COLLEGE -THE PSAT

You will also receive more tips on free college, acing tests, scholarships and more.

\$100,000 Before the Senior Year!

The 100,000 dollar bill is a banknote of the United States that was printed by the Bureau of Engraving and Printing from 1934 to 1935. It was never publicly circulated and was only used for transactions between Federal Reserve Banks. With a face value of 100,000 dollars, it is the highest-denominated piece of paper money ever produced by the United States. The note technically still holds the status of legal tender, but has not seen circulation since the 1960s.

Knowing test-taking strategies can be the difference in 100K scholarship or 100K debt.

The *PSAT/NMSQT

Let's find out what the PSAT can do for YOU ...

Colleges want to brag about you.

Sounds crazy but colleges are on the lookout for high scorers to improve their reputation as a go-to college! And it starts with recognition by the National Merit Corporation for students with high junior PSAT scores. So, you should be aware of the minimum number of annual Merit Scholarship awards that the NMSC expects each college to offer based on junior PSAT/NMSQT scores. Some of the perks that colleges offer for these students who enroll are: Full-ride, free tuition, free room and board, grad school money, a new computer, study-abroad stipends, spending cash, honors dorms, etc.

CPG teaches you how to ace tests from as young as 6th grade so you can prepare for the SAT for a 7th grade talent search. From there we also encourage you to take the PSAT in 8th, 9th and 10th grade for practice and the 11th grade when it really counts for scholarships.
