## Did You Know Higher PSAT/SAT/ACT Scores Can Benefit Your Class?

- Schools are ranked by their average SAT scores. Higher scores can attract new families and greater opportunities to your district.
- Counselors and parents can focus less on test prep and spend more time helping students have their best high school experience.
- Because College Prep Genius strategies can help with *any* standardized test, teachers can spend less time preparing students for standardized tests, and more time in creative and stress-free environments.
- Having National Merit Scholars and Achievers is a highly coveted achievement for any family. When juniors and seniors receive high test scores and scholarships, schools gain huge bragging rights that help them stand out...in a good way.
- Because colleges receive their national rankings based on test scores, colleges and universities offer amazing scholarships based on high test scores.
- By giving freshman and sophomore students the chance to figure out their weaknesses early, they can alleviate test-taking pressure during the years their scores count.

## Why College Prep Genius?

- ✿ Unlike most test prep programs, College Prep Genius does not teach memorization or simply reteach high school. We teach **relevant strategies and the logical recurring patterns** found on standardized tests.
- ✿ The average College Prep Genius student raises their score 250 points. Many have **increased their SAT scores by as much as 600 points**, become **National Merit Scholars** and gone to **Ivy Leagues for FREE!**
- ✿ College Prep Genius can help you with other standardized tests, including the PSAT, ACT, and CLT. Did you know the **SAT and ACT are about 95% the same test**, and a lot of the ACT writers now work for the College Board (SAT makers). The formatting is almost identical so there is a crossover of information that works on the ACT.
